#### Estar is used for States of Being

Emotional, physical & mental states of your bodies' being:

- Feelings/moods/emotions, physical conditions or appearances, civil state (married, single, divorced, death)

Placement State of Being:

- Location of things and people (not not-events)

Action State of Being

## What's the difference between *ser* and *estar*?

### SER

refers to permanent, stable, non-changing conditions such as your gender, personality qualities, where you're from, what you do for a living

### ESTAR

refers to time- and situation-dependent conditions, conditions, and states such as emotions or behavior

Hint: Use the acronym "DOCTOR" and "PLACE" to remember these distinctions!

There are also some idiomatic expressions that simply should learn: The Apple is Green. (The apple is green.) The Apple is Green. (The apple is immature.) Food is good. (Food tastes good.) Note that sometimes being is often modified by an adverb as well instead of an adjective: I'm fine. (I'm fine.) Although it is rare, there are some situations where you can use Being or Being. A married man describing his marital status could say "I'm married" or "I'm married." It may be more likely that you use soybeaus because you use soybeaus consider being married as part of your identity, although you could use ESTOY to indicate that you had recently married. Both Being and Estar are irregularly conjugated. Here is a table of her present indicative time: To be I be soja I am táec eros is . Ella, You are estáine we are We are you are they, they, you son Están suana is attentive and with Good Comunicació. (Susana is reflective with good communication skills. Being used with personal quality). Susana is attentive to her friend's situation. (Susana is attentive to the situation of her friend. Being is being used to characterize behavior.) Roberto is as nervous as a person as my brother. (Roberto is as nervous as my brother now. Being used for an emotional state that is independent of personal qualities). Being and Being are the two most used verbs as the equivalent of English ". used to describe the nature of someone or something. OStar is typically used in a state of being that is not necessarily innate. Home » Spanish Learning Tips » Beginner Spanish Tips » Being vs. Question: Being or Being? To be or to be? Although the phrase does not have the same ring as the famous words of

hamlet, it is a question that can be found asking when faced with two Spanish verbs that both mean "being": being and being. Content Why is it important to pray to be and be properly? I am sorry, but yes. There's a big difference between getting bored and being a boring person, and saying someone's cute or a good person. We will avoid these mistakes later, but in case you are not convinced by these examples, remember that getting your head around the finer points of Spanish grammar will not only make you sound amazing, but will also transform you into a better version of your Spanish speaking self. let's go down to it and find out when to use the verb to be, when to be describes the "essence of things" – the things that do something that is and are unlikely to change. Some people say that being described as "permanent states", but we get the most essential idea, 1. to be when describing people or things to be is used both for physical descriptions and for character descriptions or personality traits. She's tall. (she's tall). She's smart and kind. (it's smart and kind). It is also used to describe where someone comes from and their nationality. these characteristics are what makes up the essence of a person. She's from Colombia. (it's from Colombia). she's Colombian. You can also not change how high you are (unless you are lionel messi) and you can definitely not change where you are (as Argentine messi) will proudly boast), hence the use of ser. The same rules apply for things, so you use ser to describe a table in the same way you would a person: La mesa es grande.Á (The table is big.) La mesa es italiana.Á (The table is Italian.) DonçÁÁÁt forget to use the correct gender when using adjectives. If youçÁÁÁre a girl, youçÁÁÁll probably want to use adjectives ending in çÁÁÁacÁÁÁ when describing yourself, if youçÁÁÁre a boy, go for çÁÁÁo.çÁÁÁ 2. Use Ser to Describe a PersonçÁÁÁs Occupation A personçÁÁÁs job is also deemed to contribute to their çÁÁÁessence,çÁÁÁ so we also use ser in this case. To ask someone what they do for a living, you can ask, çÁÁÁ¿De quÁÁ©Á trabajas?.çÁÁÁ and youçÁÁÁll receive the reply, çÁÁÁSoy + [their job].çÁÁÁ Soy profesora.Á (IçÁÁÁm a teacher.) Soy abogado. (IçÁÁÁm a lawyer.) Note that unlike in English, you do not use the indefinite article un/unaÁ (a/an) when talking about jobs. (IteÁÁÁs çÁÁÁSoy profesoraÁÁÁ ÁnoÁÁ çÁÁÁSoy una profesora.çÁÁÁ) 3. Use Ser to Talk About Relationships Ser is also used to describe relationships between people. Examples include: ÁÁI es mi hermano.Á (HeçÁÁÁs my brother.) Gustavo es mi novio.Á (Gustavo is my boyfriend.) Ella es mi amiga.Á (SheçÁÁÁs my friend.) Apparently these relationships also make up your essence, which makes sense if you think about it. 4. Use Ser to Talk About Possession When talking about things that belong to you or other people, you should always use ser. For example, the verb ser is used in the following cases: La casa es mía. (The house is mine.) Es mi libro. (ItçÁÁÁs my book.) Estos zapatos son míos. (These shoes are mine.) 5. Use SerÁ Áto Talk About the Time As time is of the essence, it makes sense to use ser when describing it. So donçÁÁÁt forget to use ser when talking about the time: The hour: Es la una. (ItçÁÁÁs one ocÁÁÁclock.) The day: Hoy es jueves. (Today is Thursday.) Dates: Hoy es el 21 de julio.Á (Today is July 21.) Months: Mi cumpleaÁ±Áos es en mayo. The birthday is in May). When using being in contrast to the essence of being, being is used to talk about states, locations or temporary conditions. 1. Use to be for temporary states to be used to describe someone's enthusiasm and implies that this state could be temporary. For example, in "the person is happy now, but he will always be happy. If someone was always happy, that would contribute to their essence and, therefore, it would be described using to be: it is happy (he/she/she is Happy). To describe diseases, use being. I am sick (I am sick), for example. 2. Use will be in this continuous the verb to be used to make the current continuous time, which is used to describe the Actions that occur in or around the moment of speaking. To do this in time, you need the verb to be present before the stem of the verb more "verbs -ando" or "verbs -ir-di/-er). I am á,á we are this Á + Á.á á.á á.á á.á verb stem + (-ando/-ando) is á.á á.á á.á is urity are examples are: speak: to speak: to speak: to speak: I am talking. (I'm talking). or conditions; You are not supposed to keep talking, eating or writing for the rest of your life, so you need to use and not be. Using to be in this case would be incorrect. 3. Use to be in the location when describing where something or someone is, you should also use our temporary friend to be. For example, the question "Where is Juan? Supermarket), or anywhere else Juan. Basically, if you hear the phrase" common errors with Serr will be and be like Tã" They probably imagine for this point, it is very easy to make mistakes when using being and being. But you are never afraid, a language apprentice. Everything is part of the process to be and be mixed, so I don't worry when you do it. To help you avoid flat fall on your face, we have compiled a list of common errors related to the question á ÇoeSer or be 1. SERVEÁ VS. I will be a common error for those who learn English that is to say á ÇoeI am boring Ç when in reality it means á ÇoeI am boring Ç. Spaniard students can make a similar mistake, but in this case it is not about learning the difference between two adjectives, but between two verbs. So, what is the difference between being planned and being connected? Well, seeing how you asked for ... soybeans it means that I am boring. This means that all your essence is boring, and you are a boring person. It is probably better to avoid saying this phrase together unless one or one wants to alienate, or b) they are in fact a boring person and want to tell the world about it. You may want to say that it is revealed (á Ç l/she/is boring) when you describe someone or something, but it does not blame us if someone is insulted by this declaration. I am present translates into á Ç oe I am bored and is probably more acceptable. This state of boredom is temporary, and we hope, more á á ostil for everyday life. 2. Be happy vs. We are happy we have touched this before. á Ç ølt's happy means that someone is a happy person, while á Ç Both are ostile, but it is important to know the difference between an always happy person and someone who is temporarily satisfied. 3. It is dead vs. He is dead uses the second, always. For some reason the Spanish see dead as a temporary state, and therefore always use to be to describe dead things or people. Is dead. arap soediv sorto ne olpmeje ed sosu y acis;Áb acit;Ámary n°Áicamrofni ,senoicudart rev arap Jodom orto ed o ratse ,rest arbalap anu ne cilc recah edeuP .savitcaretni sadneyel noc selo±Áapse soediv anibmoc UtneuIF amargorp le ,olpmeje roP .samoidi ed ejazidnerpa ed samargorp sotreic rop sodazilitu o aenÁI ne sodartnocne res nedeuþ sotsE .soedÁv y sotxet omoc ,selo±Áapse soidem socitn©Átua noc n°Áisremni al rargol edeuþ es aÁvadot ,oirarenti us ne ¡Átse on a±ÁapsE is osulcni .sadeuþ euq rojem ol ,salo±Áapse sasoc sal sadot ne etnemateþmoc etraedor acifingis osE .amoidi le ne n°Áisremni al ed s©Áavart a ,amoidi nu etnemavilitni ednerpa ozÁin nu om°Áac omoc .larutan amrof ed sasoc sal regocer a s;ÁraznemoC .otxetnoc ne sosu sus rev lit°ÁA res edeuþ ,ratse y res ed rodederla azebac us revloine atnetni sartneim aroh rop sallim ed n°Áállim nu a av orberoc us ne retsm;Áh ed ádeur a±Áeueþp al IS .áanosrep aneub anu se IÁÁ acifingis áoneub se IÁÁ .áoneub seá asu ,lareneg ne oneub se ogla o neigla euq riced sereñuq is orpP .áá/oneub ¡Átseá asu ,etneilac odnamuf ¡Átse neigla euq riced sereñuq iS .sorto ne odative res ebed etnemelhaborp oreþ ,sotxetnoc sonugla ne lit°ÁA etnemavilitnifed se etsE .otceþsa neub ne omoc .áetneilac ¡Átse alle o l©ÁÁ ne eciudart es áá/oneub ¡ÁtseÁ saditrevid sadarim sanugla agnet euq edeuþ ,odaciovluqe otxetnoc le ne áá/oneub ¡Átseá asu is euq ay ,samelborp rasiuac edeuþ etsE oneub ¡ÁtseE .sv oneub sE .5 .gniPVSR al areñuqer es y senoicativni odavne nayah es euq ne n°Áaisaco arto reñuqlauc o satseif ,sadb ,senoinuer omoc odacifinalþ-erp oneve reñuqlauc a acilpa es omsim oL .atseif al ed n°Áaicacibu al ed odnalbah somatse euqnua ,atcerroc se ¡asac im ne ¡Átse atseif alL (ásac im ne se atseif aLÁ euq ÁSA .n°Áaicacibu al sombircesd odnauc osulcni ,ratse on y res somasu euq sotsiverp sotneve sol somibircesd odnauc ,s;ÁÁm zev anu n°ÁAiciutni artseun artnoc rI asac im ne ¡Átse atseif aL .4 .l©ÁÁ noc ev ol°ÁAS .otreuþ your contextual understanding.
